

## WOODMEN CAMP; IS HELD BY CAR

Definite Plans Are Undertaken to Secure Triennial Encampment of M. W. A.

## FUNDS ARE REQUIRED

All Camps West of Mississippi Except Those of Colorado Favor Salt Lake.

With the intention of having business men raise a fund of about \$40,000 for the triennial encampment of Modern Woodmen of America, committees of that order will call on several cities in a few days. The local camps of the Modern Woodmen are almost certain that the big meeting will be held in Salt Lake next June if proper provision is made. A camping ground with sanitary conveniences must be provided and a fund established for entertaining the visitors. Excelsior camp 10892 has appointed a committee composed of Dr. Charles A. Armstrong, John B. Kluge, and Harry Parker. Great Salt Lake camp 10671 will appoint the second committee. The two will then hold a meeting and arrange plans for placing the matter before the Commercial club. Excelsior camp appointed its committee Tuesday night. The matter was placed before the members by J. H. Rothwell, clerk of the camp, who had been requested to do so by C. M. Ramsey of Ogden, district deputy. Mr. Rothwell said:

### Will Bring Great Throng.

If the encampment is held here about 40,000 visitors will come to Salt Lake. The expense of making new insurance rates is to be thrashed out and that ought to mean that the meeting will last about ten days. The camps of every state west of the Missouri with the exception of those in Colorado (Colorado Springs was the exception), are in favor of Salt Lake. We do not think Colorado Springs will get it. That city cannot accommodate the large crowds. A. Tallot of Lincoln, Neb., head consul, is said to be in favor of Salt Lake. When the Commercial club agreed to raise \$40,000, but Buffalo got it. It cost Buffalo \$10,000 for the campgrounds and their equipment alone. In St. Paul, Kansas City, Peoria, Milwaukee and Buffalo the expense has been from 75,000 to 100,000. Of course we cannot expect that Salt Lake in the far west, but we ought to get 40,000. There are 1,200,000 members in our order.

### Ogden Will Help.

Ogden is in favor of having the encampment held here. The Commercial club has agreed to donate a liberal amount toward defraying expenses. It certainly looks as though Salt Lake will get the big meeting if proper inducements are offered. I have no doubt this will be done.

"We are waiting to hear from the other camps," said Dr. Armstrong. "They have been requested to appoint a committee. The two committees will meet and place the matter before the Commercial club."

## CONVICT WHO ESCAPED IS SHOT BY RANCHER

The name of the rancher who unwittingly earned the reward while killing the convict, being robbed was not included in the message to Warden Pratt. A letter giving full details is expected today.

Was Instrumental in Bringing About Arrest of Murderer of Thomas Karkick.

John F. Donegan, aged 45, of Murray, the man through whom Jules C. Sirmay, murderer of Thomas Karkick, was captured, was killed last night by a street car. Mr. Donegan, who lived at 3251 State street, and who was a real estate salesman in the employ of the Alliance Investment company, lay on the track opposite Hill's gate on State between Fourteenth and Fifteenth South streets, apparently under the influence of liquor. A Midvale car, No. 606, in charge of T. J. Hadley, motorman, and E. C. Clare, conductor, struck him. October 12, 1910, Thomas Karkick, a young student, entered his home, 150 South Thirteenth East street, and was shot and killed by a burglar. Later Sirmay was seen in a brick yard in Murray, where he tried to commit suicide. Mr. Donegan notified the sheriff. Sirmay was arrested and Mr. Donegan shared in the reward for the capture of the fugitive. Sirmay was executed May 22, 1912. Before he was shot to death he confessed to the murder of young Karkick.

### Falls on Track.

Donegan was killed about 7:30 last night. He had gone to Murray on the car that preceded 606. Charles Bell of 620 East Fourteenth South street said he saw the real estate man alight at Hill's gate and that Donegan seemed intoxicated. It is thought that the man fell upon the track immediately after the car left and lay there until the next one arrived.

### Leaves Large Family.

S. D. Evans, undertaker, was notified and removed the body to his establishment on State street. Donegan was buried yesterday. His body was crushed and his ribs and other bones were broken. He was identified at first through a memorandum book. Later Shirley M. Kunkle of 446 Sixth avenue, a brother-in-law, called at the undertaker's and identified the dead man's clothes and other possessions.

## WANT NO EXEMPTION.

The city commission yesterday refused to rescind or amend the new berry ordinance by which berries cannot be sold on the local market except in full quart and pint cups. This action was taken on the petition of local growers and box manufacturers, who asked that the ordinance be amended, or at least held in abeyance during the coming berry season, on the ground that they already have a year's supply of berry boxes of the old type on hand. They declared they would suffer heavy financial loss if the ordinance is enforced this year. A protracted hearing was given the petitioners Tuesday.

W. E. Farr, scaler of weights and measures, was instructed to warn California growers that their product cannot be placed on the local market except in the standard sized cups fixed by the ordinance.

The bill of Ogden Hiles and F. S. Richards for \$8000 attorney fees for services rendered in the case of the Progress Valley company, was presented to the city commission yesterday. ## JAMAICA GINGER IS UNDER THE BAN

Special Agent of Interior Department Says Indians Substitute It for Whisky.

No more Jamaica ginger for the Indian in Utah. A ban has been placed on the liquor so far as its sale to Indians is concerned, and henceforth those who are caught selling the ginger to them will be prosecuted as vigorously as though they had sold whisky to them. Such is the edict that has gone forth as a result of a conference between Hiram South, local United States district attorney, and Lorenzo C. Cool, special agent for wandering bands of Indians in Utah, representing the interior department.

The conference resulted from a visit of Mr. Cool to Tooele county, where, he says, Indians have been buying much of the ginger and using it as a substitute for whisky, declaring it "cheap good-same like firewater."

Under section 4298, compiled laws of Utah for 1907, it is a felony to sell, exchange, give, barter or dispose of any intoxicating drink to any Indian of the tribe or band, or to any person inhabiting in the state prison for not more than three years, or by a fine not exceeding \$500.

Several Indian war veterans were also before the committee to urge favorable action on the bill providing for pensions for Indian war veterans. The bill calls for an appropriation of more than \$300,000. The committee will probably be agreed that this amount cannot be appropriated at this time. However, they promised to recognize the claims of the veterans and will probably appropriate \$25,000 to be distributed among the survivors of the war.
